LETTER OF TRANSMITTAL.

STATE OF OHIO,
BUREAU OF LABOR STATISTICS.

COLUMBUS, OHIO, Dec. 23, 1905.

To His Excellency, Myron T. Herrick, Governor of Ohio:

SIR—I have the honor to submit, through you, to the General Assembly the twenty-ninth annual report of the Bureau of Labor Statistics, as provided by Section 310 of the Revised Statutes of Ohio.

Very respectfully,

M. D. RATCHFORD,
Commissioner.

STATE OF OHIO.

BUREAU OF LABOR STATISTICS.

Hon. M. D. Ratchford ..... Commissioner.
Frank Ashman ..... Chief Clerk.
Nellie E. Sheehan ..... Stenographer.
Clara M. Carmichael ..... Clerk.
E. C. Welker ..... Clerk.
Annette C. Zimmer ..... Clerk.

(Copies of this edition can be obtained on application to the Bureau.)

INTRODUCTORY.

In the twenty-ninth annual report submitted herewith will be found the figures and conclusions having application to the condition of general manufactures, coal mining and prison labor; also table showing the business of the free public employment offices, with recommendations for needed legislation looking to the improvement of our employment office system that it may meet the growing demands of the people and to which attention is most earnestly invited.

The condition of general manufactures during the year, while unusually active and healthy, showing a decided improvement over the average for the past decade, can hardly be said to be quite as prosperous as during the preceding year. One of the chief causes operating in this connection, and which contributed in producing this result, is found in the fact that a large proportion of the manufacturing establishments that sprung into existence during the period of exceptional values (1900-1903), and which had all the appearances of permanent business concerns, have since ceased operations, thus reducing the aggregate value of manufactured articles in about the same ratio. The influence affecting manufactures most seriously, however, was the marked depression in the iron and steel and kindred industries, which continued almost throughout the year. In consequence of this condition, due to whatever cause it may, a comparison with the report of 1904 shows a decrease in the value of goods manufactured in all lines of $38,000,000; also a falling off in the wages of labor of more than $8,000,000. During the year, 22,000 persons received an advance in wages of 8.4 per cent. as compared with 62,000 during the former year, who received an advance of 7.9 per cent. Twenty-one thousand persons suffered a reduction of 8.3 per cent., compared with 4,000 during the previous year, when the reduction was 6.5 per cent. The slight change as shown by those figures for the year, both as to the variation in wages and the number affected, almost balances each other. When taken in connection, however, with the reports of 1902 to 1904, it will be seen that wages show a marked declining tendency. The number affected by an increase in wages is considerably less, while the number who suffered reductions has greatly increased. Reference to the new compilation in tabular form, showing the hours, wages and yearly earnings by cities of the leading occupations, it is hoped will be both interesting and instructive.

The coal mining industry during the greatest part of the year was unusually inactive, owing, mainly, to the depression in the iron and steel

business and to a strike that occurred in eastern Ohio, including the counties of Belmont, Jefferson and Harrison, which involved some 12,000 miners and continued for many weeks. An increase, however, of 21 mines is shown over the report of 1904, and of 544 miners. An increase is also shown in the capital invested of nearly $4,000,000; and in the salary of superintendents, salesmen and office help of about $84,000. During the same period, the value of the product has declined nearly $3,500,000; the total amount paid in wages to the miners has also declined about $400,000; the number of days worked has fallen off 18; and the yearly earnings have declined more than $70.00 per employe. The reduction suffered affected almost 30,000 miners and the amount was 5.6 per cent.; while less than 100 received an advance of 9.4 per cent. In considering those comparisons, proper regard must be had for the variation in the figures, both as to the number of miners and the number of days worked; otherwise, the conclusions formed may be misleading. The condition of the industry at this writing might be said to be a good average for this season of the year, and values are also reasonably good; but considerable complaint is heard from all the mining districts of the state against the transportation facilities. It is claimed that orders and business are good, but delivery is slow and uncertain because of this reason.

The prison labor report, made by a competent agent of the department under 7432-1 and 7432-2 of the Revised Statutes, commonly known as the "Ten Per Cent. Law," includes, as will be seen from the tables, all the penal and reformatory institutions of the State, and is believed to be very full and complete, as the figures in support of the conclusions arrived at have been given by the officers of the institutions and the managers in charge of the establishments affected. A careful comparison is made showing the number of prisoners employed in the various institutions and in the several lines of industry with that of free laborers engaged in like industries in the State. It is hoped that the report is sufficiently full and convincing to form a basis for action looking to the enforcement of the law referred to, regulating the employment of prisoners. The figures and tables, to which attention is especially invited, will show that such law is far from being observed or respected.

The reports of the free public employment offices of Cleveland, Columbus, Cincinnati, Dayton and Toledo (five in number), as officially made to this Bureau for the twelve months ending October 31st last, show that 19,650 persons in all were found employment through those agencies at a cost to the State for the same period of $13,350.89. These figures by no means represent the persons for whom permanent employment was found, as it is not unlikely that the greatest portion of them was only procured odd jobs or temporary positions, often costing almost as much money to place them as they received in wages, and yet the condition reflects, probably, as good an employment office system as that in vogue in any of the States. It is, at least, up to the average, but, at the same time,

it is far from meeting the needs and requirements of the people, or the demands of an advancing industrial condition. In verification of this statement, we have only to cite the fact that, probably, every city in the State, of 20,000 population or more are petitioning the Bureau, through one source and another, to have a free public employment office established therein. To extend those offices beyond the cities to which they are now limited would require a special act of the legislature, and, as that body could not well discriminate between cities whose claims are equally strong and the wants of whose people vary but little, we vouchsafe the opinion that, if the system is extended at all, it will reach all the cities such as above referred to, and as those cities are quite numerous (probably, ten or a dozen in number), it would mean that the expense of maintaining employment offices in all would reach fully three times the present outlay; while, in the meantime, the number of persons benefited can not be expected to increase in the same proportion, as the offices in the smaller cities would not have the population to draw from such as they have in the five large cities named.

To relieve this situation, and with a view to and a desire for the establishment of a more adequate and perfect system of free employment agencies, through which laborers, workingmen and women of all classes may be aided in finding employment, it is recommended that the present system be abolished, and that the following recommendation be enacted into law:

That the board of county commissioners of each of the several counties in the State be authorized to establish, at their own discretion, a free public employment office to be operated and conducted within the court house of their respective counties, such offices to be supported by the county, as other county offices are supported and maintained. And that such board of county commissioners be also empowered to appoint the officer and assistants in charge and to remove the same for cause shown by a majority vote of their members. A graded salary for such officers and assistants should also be provided for by statute, based upon the population of the counties.

The peculiar advantages of this proposed system are, that it will place within the reach of all the counties of the State, and, hence, all the people, the opportunities of a free employment office, placing the burden of taxation for the support of such offices upon the counties that availed themselves of the system. It would, by reason of the comparatively close proximity of the office to the most remote part of the county, afford opportunities to those seeking employment or help, an opportunity of which they are deprived under the present system. It would save to the taxpayers, conditioned upon its establishment in the county building, the three great items of expense—rent, light and heat—which, under the present system, the State is obliged to pay. It would place the officer in charge

under the daily supervision and observation of the power which created him, thus insuring the best, possible service to the people.

Much more might be said in favor of this proposed system as against the system that now prevails, but it is my purpose only to call attention to a few of the main questions, leaving the details to the legislature to be worked out according to its own pleasure. I do not hesitate in saying, however, that, after years of experience and careful study in connection with this work, if the recommendations be adopted as proposed, the best free employment office system will exist in Ohio of any State in the Union; if not, of the foreign countries. A system that promises to give to the people the highest and best results at the least possible expenditure. The economic aspect of the question alone should commend itself to all friends of the employment office system. It is safe to say that, under the proposed plan, the cost of maintaining an office would be reduced fully from thirty-five to fifty per cent. as compared to the present system; while the efficiency of the offices, from the standpoint of all the people, would be greatly increased, and the burden of taxation for their support would be properly equalized or apportioned.

Under the law regulating private employment agencies, or agencies that are organized for profit, which took effect in June, 1904, 28 licenses have been issued by the Department during the year and one has been revoked for good cause shown. This act, like all other new legislation that is calculated to meet and restrict all manner of varying conditions in the particular field to which it applies, has worked remarkably well; yet, after a year's experience or more in the execution of such law, some weaknesses were found to exist that should be remedied. With this end in view, certain recommendations will be made to the seventy-seventh general assembly looking to the improvement of the act, which it is hoped will be effected.

The Bureau is very grateful for the courtesies extended by the Governor's office and by all other departments of the State with which it had business relations; also to its patrons—the manufacturers and the producers of the State—and to the efficient force of clerks and special agents, whose valuable services contributed so greatly in the making of this report.

COLUMBUS, OHIO, February 15, 1905.

Hon. W. S. McKinnon, Treasurer of State, Columbus, Ohio:

DEAR SIR:—In compliance with the law governing and regulating private employment agencies within the State, I beg to submit herewith an accounting of all moneys received by this Department through the operation of such law; also an account of the moneys expended from same fund for the purpose of enforcing the provisions of the act.

RECEIPTS.

Total		2,853 06
Balance on hand December 23, 1905		$1,139 73

Respectfully submitted,

M. D. RATCHFORD,

Commissioner.

PART I.

Laws Governing the Bureau, Recent Labor Laws and Court Decisions.

LAWS

Governing the Bureau of Labor Statistics.

Sec. 307. The commissioner of labor statistics shall be appointed by the governor, by and with the advice and consent of the senate, and shall hold his office for two years.

Sec. 308. The commissioner shall have an office in the state house which shall be a bureau of labor statistics, and he shall collect, arrange and systematize all statistics relating to the industrial, social, educational, and sanitary conditions of the laboring classes, and to the productive industries of the state, including the names of firms, companies, or corporations, where located, capital invested in grounds, buildings, and machinery; class and value of goods produced or manufactured; number of days in operation; amount paid yearly, for rent, taxes and insurance; amount paid in wages; number of employes, male and female; number engaged in clerical work and manual labor, with detailed classification of the number and sex engaged in each class or occupation, and the average daily wages paid to each. Said commissioner is authorized to appoint special agents to represent the bureau with authority to visit the delinquent firms and collect such statistics and perform such other duties as may be required, with like power as is conferred by law upon said commissioner; provided, that the compensation of such agents is paid from the contingent fund of the bureau. Said commissioner is hereby authorized and directed, immediately after the passage of this act, to organize and establish in all cities of the first class, and cities of the first and second grade of the second class in the state of Ohio, a free public employment office, and shall appoint one superintendent for each of said offices to discharge the duties hereinafter set forth. Said superintendents shall cause to be posted in front of their said offices on a sign board, or in a suitable place on the building where such offices are located, the words, "Free public employment office." It shall be the duty of such superintendents to receive all applications for labor of those desiring employment and those desiring to employ labor, and record their names in a book kept for that purpose, designating opposite the name of each applicant the character of employment or labor desired, and the address of such applicant. Each of said superintendents shall be provided with such clerical assistance as in the judgment of the commissioner may appear necessary for properly conducting the duties of their several offices.

No compensation or fees shall, directly or indirectly be charged to or received from any person or persons seeking employment, or any person or persons desiring to employ labor through any of said offices. Said superintendent shall make a weekly report on Thursday of each week to said commissioner of all persons desiring to employ labor, and the class thereof, and all persons applying for employment through their respective offices, and the character of employment desired by each applicant; also, of all persons securing employment through their respective offices, and the character thereof, and a semi-annual report of the expense of maintaining such offices. Said commissioner shall cause to be printed weekly a list of all applicants and the character of employment desired by them, and of those desiring to employ labor, and the class thereof, received by him from the respective offices aforesaid, and cause a true copy of such list on Monday of each week to be mailed to the superintendent of each of said offices in the state, which said list by the superintendent shall be posted immediately, on receipt thereof, in a conspicuous place in his office, subject to the inspection of all persons desiring employment. Said superintendents shall perform such other duties in the collection of labor statistics as said commissioner shall determine. Any superintendent or clerk, as herein provided, who directly or indirectly charges or receives any compensation from any person whomsoever in securing employment or labor for any other person, or persons, as provided in this act, shall be deemed guilty of a misdemeanor, and be fined in any sum not exceeding fifty dollars and imprisoned in the county jail or workhouse not exceeding thirty days. Said superintendent of each of such offices shall receive a salary of twelve hundred dollars per annum, and said clerk shall receive a salary of six hundred dollars per annum, payable monthly. Said salaries shall be paid upon warrant of the auditor of state on the treasurer of state from the state funds through the bureau of labor satistics.

Sec. 308*a*. The tenure of office for all superintendents and clerks of free public employment offices shall be two years from the date of appointment, but the commissioner of labor statistics shall have the power of removing any of such superintendents and clerks for good and sufficient cause, and all appointments and removals of such superintendents and clerks shall be made with the consent of the governor.

Sec. 309. The commissioner shall have power to send for persons and papers, to examine witnesses under oath, to take depositions, to cause them to be taken by others by law authorized to take depositions; and said commissioner may deputize any uninterested person to serve subpœnas upon witnesses, who shall be summoned in the same manner and paid the same fees as witnesses before a county court, but for this purpose persons are not required to leave the vicinity of their residence or place of business, and any person or owner, operator, manager or lessee of any mine, factory, workshop, warehouse, elevator, foundry, machine shop,

manufacturing or other industrial establishment, or any agent or employe of such owner, operator, manager or lessee who shall refuse said commissioner admission therein for the purpose of inspection, or who shall when requested by him, wilfully neglect or refuse to furnish to him any statistics or other information relative to his lawful duties which may be in their possession or under their control, or who shall wilfully neglect or refuse, for thirty days, to answer such questions by circular or upon personal application, or who shall knowingly answer any such questions untruthfully, or who shall refuse to obey the subpœnas and give testimony according to the provisions of this act shall, for every such wilful neglect or refusal be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than fifty nor more than five hundred dollars.

Sec. 310. The commissioner shall make an annual report to the general assembly of the work done by the bureau. Said report shall be so compiled so as not to expose, without written consent, the name or private affairs of any person, firm, company or corporation that has furnished such information as the bureau requires.

AN ACT.

To amend sections 308 and 308*a* of the Revised Statutes of Ohio, relating to the duties of the commissioner of labor statistics, the appointment, duties and compensation of superintendents and clerks of free public employment offices.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 308 and 308*a* of the Revised Statutes of Ohio, be amended so as to read as follows:

Sec. 308. The commissioner shall have an office in the state house which shall be a bureau of labor statistics, and he shall collect, arange and systematize all statistics relating to the industrial, social, educational and sanitary conditions of the laboring classes, and to the productive industries of the state, including the names of firms, companies, or corporations, where located, capital invested in grounds, buildings, and machinery; class and value of goods produced or manufactured; number of days in operation; amount paid yearly for rent, taxes and insurance; amount paid in wages; number of employes, male and female; number engaged in clerical work and manual labor, with detailed classification of the number and sex engaged in each class or occupation, and the average daily wages paid to each.

Said commissioner is authorized to appoint special agents to represent the bureau with authority to visit the delinquent firms and collect such

statistics, and perform such other duties as may be required, with like power as is conferred by law upon said commissioner; provided, that the compensation of such agents is paid from the contingent fund of the bureau. For the purpose of carrying out the provisions of this act, the state is hereby divided into five districts, the boundaries of which shall be designated by the governor and said commissioner and the governor and said commissioner shall appoint one superintendent for each of said districts to discharge the duties hereinafter set forth. Said superintendents shall cause to be posted in front of their said offices, on a sign board, or in a suitable place on the building where such offices are located, the words, "Free Public Employment Office."

It shall be the duty of such superintendents to receive all applications for labor of those desiring employment and those desiring to employ labor, and record their names in a book kept for that purpose, designating opposite the name of each applicant the character of employment or labor desired, and the name of such applicant. Each of said superintendents shall be provided with a clerk if in the judgment of the commissioner the same may appear necessary for properly conducting the duties of their several offices.

No compensation or fee shall, directly or indirectly, be charged to or received from any person or persons seeking employment or any person or persons desiring to employ labor through any of said offices. Said superintendent shall make a weekly report on Thursday of each week to said commissioner of all persons desiring to employ labor, and the class thereof, and all persons applying for employment through their respective offices, and the character of employment desired by each applicant; also, of all persons securing employment through their respective offices, and the character thereof, and a semi-annual report of the expense of maintaining such offices. Said commissioer shall cause to be printed weekly a list of all applicants and the characters of employment desired by them, and of those desiring to employ labor, and the class theerof, received by him from the respective offices aforesaid, and cause a true copy of such list on Monday of each week to be mailed to the superintendent of each of said offices in the state, which said list by the superintendent shall be posted immediately on receipt thereof, in a conspicuous place in his office, subject to the inspection of all persons desiring employment. Said superintendents shall perform such other duties in the collection of labor statistics as said commissioner shall determine. Any superintendent or clerk, as herein provided, who directly or indirectly charges or receives any compensation from any person whomsoever in securing employment or labor for any other person, or persons, as provided in this act, shall be deemed guilty of a misdemeanor, and be fined in any sum not exceeding fifty dollars and imprisoned in the county jail or workhouse not exceeding thirty days.

Said superintendent of each of such offices shall receive a salary of fifteen hundred dollars per annum, and said clerk shall receive a salary of seven hundred and twenty dollars per annum, payable monthly. Said salaries shall be paid upon warrant of the auditor of state on the treasurer of state from the state funds through the bureau of labor statistics.

Sec. 308*a*. The tenure of office for all superintendents of free public employment offices shall be two years from the date of appointment, but the commissioner of labor statistics shall have the power, by and with the consent of the governor, of removing any of such superintendents for good and sufficient cause. The clerk allowed in any free public employment office shall be appointed by the superintendent of the respective office, when approved by said commissioner, and shall serve during the pleasure of the superintendent; provided, however, that all superintendents and clerks now in office shall remain in office until the expiration of their present terms, unless sooner removed by the governor and commissioner for good cause shown, which power is hereby given the governor and said commissioner, and in case of such a removal, and at the end of the present terms of superintendents or clerks, their successors shall be appointed as herein provided.

Section 2. That said section 308 and 308*a*, of the Revised Statutes of Ohio be and the same are hereby repealed.

Hollis C. Johnston,
Speaker pro tem. of the Houes of Representatives.

W. G. Harding,
President of the Senate.

Passed April 14, 1904.
Approved April 19, 1904.

Myron T. Herrick,
Governor.

EXAMINATION OF STATIONARY ENGINEERS .

97 O. L., 28.

Be it enacted by the General Assembly of the State of Ohio:

Section 1. That sections 6, 7, 8 and 9 of an act entitled, "An act for the better protection of life and property against injury or damage, resulting from the operation of steam engines and boilers by incompetent engineers and others, and to repeal an act therein named," passed March 1, 1900 (94 O. L., 33), as amended March 13, 1902 (95 O. L., 48) and April 30, 1902 (95 O. L., 333), be amended so as to read as follows:

(4364-89*q*) Sec. 6. Any person who desires to act as a steam engineer shall make application to the district examiner of steam engineers

for a license so to act, upon a blank furnished by the examiner, and shall sucessfully pass an examination upon the following subjects: the construction and operation of steam boilers, steam engines, and steam pumps, and also hydrolics, under such rules and regulations as may be adopted by the chief examiner, which rules and regulations, and standard of examination, shall be uniform throughout the state. If, upon such examination, the applicant is found proficient in said subjects a license shall be granted him to have charge of and operate stationary steam boilers and engines of the horse power named in this act. Such license shall continue in force for one year from the date the same is issued, provided, however, the district examiner may, upon written charges, after notice and hearing, revoke the license of any person guilty of fraud in passing the examination, or who has become insane or who is addicted to the liquor or drug habit to such a degree as to render him unfit to discharge the duties of steam engineer.

(4364-89*r*) Sec. 7. Any person to whom a license is issued under the provisions of this act shall upon application at the expiration of one year from the date thereof be entitled to a renewal thereof for one year, unless the district examiner of his district for the cause or causes set out in section 6 of this act, upon notice and hearing, should refuse such renewal.

(4364-89*s*) Sec. 8. The fee for examination of applicants for license shall be two dollars ($2), to be paid at the time of application for examination, and two dollars, ($2) for each renewal of license. All fees collected and received by the district examiners from the issue of licenses and the renewal of the same, shall be, on or before the 5th day of each month, remitted to the chief examiner at Columbus, together with a monthly report of the business of their offices. Said chief examiner shall pay into the treasury, to the credit of the general revenue fund, all moneys and fees by him received from the district examiners, and, on or before the 10th day of each month, said chief examiner shall file a monthly report with the governor, of the business of his office and the amount of money received by him and paid into the state treasury.

(4364-89*t*) Sec. 9. Any person dissatisfied with the action of any district examiner in refusing or revoking a license, or a renewal thereof, may appeal to the chief examiner, who shall investigate the action of said district examiner; if, upon such investigation, said chief examiner finds that the district examiner was justified, for the cause or causes set out in section 6 of this act, in refusing or revoking such license, or renewal thereof, he shall sustain the district examiner in his action; but should said chief examiner find that the district examiner was not justified in refusing or revoking such license, or renewal thereof, he shall order said district examiner to issue a license to the person making the appeal.

Section 2. That said sections 6, 7, 8 and 9 of an act entitled, "An act for the better protection of life and property against injury or damage,

resulting from the operation of steam engines and boilers by incompetent engineers and others, and to repeal an act therein named," passed March 1, 1900 (94 O. L., 33), as amended March 13, 1902 (95 O. L., 48) and April 30, 1902, (95 O. L., 333) and Sec. 4364-89*q*, be and the same are hereby repealed

SECTION 3. This act shall take effect and be in force from and after its passage.

GEORGE T. THOMAS,
Speaker of the House of Representatives.

GEO. H. CHAMBERLAIN,
President pro tem. of the Senate.

Passed March 3, 1904.
Approved March 4, 1904.

MYRON T. HERRICK,
Governor.

CARE FOR INJURED PERSONS AT MINES.

97 O. L., 63.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. It shall be the duty of operators or superintendents to keep at the mouth of drift, shaft or slope, where more than ten miners are employed, or at such other place about the mine as shall be designated by the state or district mine inspector, a stretcher properly constructed, and a woolen blanket and a waterproof blanket in good condition, for use in carrying away any person who may be injured at the mine.

Provided, That where more than four hundred persons are employed, two stretchers and two woolen blankets and two waterproof blankets shall be kept. And in mines generating fire damp a sufficient quantity of linseed or olive oil, bandages and linen shall be kept in store at the mine for use in emergency, and bandages shall be kept at all mines.

GEORGE T. THOMAS,
Speaker of the House of Representatives.

W. G. HARDING,
President of the Senate.

Passed March 31, 1904.
Approved April 1, 1904.

MYRON T. HERRICK,
Governor.

EMPLOYMENT OF FLAGMEN AND HOSTLERS ON RAILROADS.

97 O. L., 72.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That no person, firm or corporation, owning, operating or controlling any railroad, running through or within the state of Ohio, shall employ as flagman or hostler, or assistant hostler, within said state, any person who cannot read and write and speak the English language; but this act shall not apply to flagmen at street or highway crossings.

SECTION 2. Any person, firm or corporation who shall violate the provisions of the foregoing section, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than five hundred dollars ($500), or more than one thousand dollars ($1,000).

GEORGE T. THOMAS,
Speaker of the House of Representatives.

W. G. HARDING,
President of the Senate.

Passed April 5, 1904.
Approved April 7, 1904.

MYRON T. HERRICK,
Governor.

REGULATE MANUFACTURE OF HIGH EXPLOSIVES.

97 O. L., 302.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. All persons, partnerships and corporations within the state of Ohio, now engaged in manufacturing, selling, handling or storing powder, dynamite, nitroglycerine, fuses or other explosives and their compounds, shall on or before the 15th day of September, 1904, file with the chief inspector of workshops and factories, upon blanks which shall be furnished by such inspector upon application, a statement of the location of each factory, storehouse, or magazine, owned or controlled by such person, corporation or partnership, together with the character of the explosive manufactured, the quantity stored or kept on hand, the number of persons employed there, and the distance such factory, storehouse, or maga-

zine is located from the nearest factory, workshop, mercantile or other establishment, occupied dwelling, church, schoolhouse or building in which people are accustomed to assemble, railroad or public highway. Each report filed shall be examined by the chief inspector of workshops and factories, and submitted to the inspector of high explosives who shall make a personal examination, of each factory, storehouse and magazine and if upon such examination, such factory, storehouse or magazine in his judgment shall be found to be located at a safe distance from [any] factory, workshop, mercantile or other establishment, occupied dwelling, church, schoolhouse or building in which people are accustomed to assemble, railroad or public highway, and to be so planned and managed as to insure as great safety as is consistent with the nature of the business, then the chief inspector of workshops and factories shall approve the plans and location of such factory, storehouse or magazine.

SECTION 2. Any person, corporation or partnership, that shall hereafter engage in the business of manufacturing, storing or handling any of the high explosives mentioned in section one of this act shall, before engaging in such business, report to the chief inspector of workshops and factories, upon blanks to be furnished by such chief inspector, upon application, the kind and amount of explosives, such person, partnership or corporation proposes to manufacture or handle, together with a drawing showing the plans of all factories, storehouses and magazines, with an accurate statement of the distance such proposed factory, storehouse or magazine, shall be located from the nearest factory, workshop, mercantile or other establishment, occupied dwelling, church, schoolhouse, or building in which people are accustomed to assemble, railroad or public highway, which report, together with the plans, shall be submitted to the inspector of high explosives for personal examination, correction and approval. And it shall be unlawful for any person, partnership or corporation to engage in such business until such plans are approved by the chief inspector of workshops and factories, and it shall be unlawful for any person, partnership or corporation now engaged in the business of manufacturing, handling or storing any of the high explosives mentioned in section one of this act to continue such business after September 15, 1904, without the approval of the chief inspector of workshops and factories as provided in section one of this act. Any person, partnership or corporation who shall engage in the business of manufacturing, storing or handling any of the high explosives mentioned in section one of this act on or at any time after September 15, 1904, without first having obtained the approval of the chief inspector of workshops and factories as herein provided, shall be guilty of a misdemeanor, and upon conviction shall be fined not less than $100, nor more than $1,000. Nothing in this act shall be held to apply to persons, partnerships or corporations engaged in the wholesale or retail drug business, or to retail dealers in gunpowder, fuses or fireworks, who store not to exceed twenty-five (25) pounds at any one

place at one time, and it shall be the duty of the chief inspector of workshops and factories and the inspector of high explosives to enforce the provisions of this act.

EMPLOYMENT OF MINORS.

97 O. L., 321.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That sections 1, 2 and 3 of an act entitled "An act to regulate the employment of minors and to repeal sections 6986, R. S., passed April 25, 1891; 6986*aa* R. S., passed March 21, 1887; 6986*bb* R. S., passed April 27, 1885; 6986*c* R. S., passed April 27, 1885," passed April 19, 1898, as amended May 12, 1902, be amended to read as follows:

Sec. 1. No child under the age of fourteen years shall be employed in any factory, workshop, mercantile or other establishment, directly or indirectly at any time, nor be employed as messenger or driver therefor; and no child under [said] the age shall be employed in any other manner, whether it be for compensation or otherwise, when the public schools in which district such child resides are in session.

Every person, company or corporation, or agent having charge of or the management of such factory, workshop, mercantile or other establishment employing any child over fourteen years and under sixteen years of age, shall exact the age and schooling certificate prescribed in section 4022-2 as a condition of employment, and shall keep the same on file, and shall upon the request of the chief or district inspector of workshops and factories produce said certificates for inspection; but no person authorized as aforesaid shall approve such certificates for any child under sixteen years of age then in or about to enter his own employment or the employment of firm, company or corporation of which he is a member, officer or employe. An age and schooling certificate shall not be approved unless satisfactory evidence is furnished by the last school census, the certificate of birth or baptism, or in some such manner, that said child is of the age required as aforesaid; failure to produce to an inspector of workshops

and factories an age and schooling certificate, as aforesaid required, shall be prima facie evidence of the illegal employment of any person whose age and schooling certificate is not produced.

In case of doubt of the physical fitness of such minor, the inspector shall require a certificate signed by a medical officer of the board of health, certifying that such child is in sound health and physically able to perform the work he is required to do.

Sec. 2. It shall be the duty of every person employing minors under the age of eighteen years to keep a register in which shall be recorded the name, birthplace, age and place of residence of every minor employed by him under the age of eighteen years. No boy under sixteen years of age and no girl under eighteen years of age, shall be employed at any work at night time later than seven o'clock in the evening nor earlier than six o'clock in the morning, and no minor under eighteen years of age shall be employed in any of the places named in section 6986-7 of the Revised Statutes of Ohio for a longer period than ten hours in one day, nor more than fifty-five hours in one week; and every such minor under eighteen years of age shall be entitled to no less than thirty minutes for meal time at noon, but such meal time shall not be included as part of the work hours of the day; and every employer shall post in a conspicuous place in every room where such minors are employed a printed notice stating the maximum number of work hours required in one week, and in each day of the week from such minors; such printed notice to be furnished by the chief inspector of workshops and factories, and approved by the attorney-general.

Sec. 3. Any person, firm or corporation who shall employ any minor contrary to the provisions of this act, or who shall violate any of the provisions thereof, shall, upon conviction, be fined in any sum not less than ten dollars nor more than fifty dollars, and upon failure or refusal of any such person, firm or corporation to pay said fine or costs according to the order of the court, then such person, firm or corporation shall be imprisoned in the county jail until such fine is paid.

Section 4. That original sections 1, 2 and 3, as amended are hereby repealed.

George T. Thomas,
Speaker of the House of Representatives.

W. G. Harding,
President of the Senate.

Passed April 23, 1904
Approved April 25, 1904.

Myron T. Herrick,
Governor.

PRIVATE EMPLOYMENT AGENCIES.

97 O. L., 485.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. [That] no person, firm or corporation in this state shall open, operate or maintain a private employment agency for hire, or where a fee is charged to either applicant for employment or for help without first obtaining a license for the same from the state commissioner of labor statistics. Such license fee in cities shall not be less than fifty ($50.00) dollars nor more than one hundred ($100.00) dollars per annum. In villages not less than ten ($10.00) dollars nor more than twenty-five ($25.00) dollars per annum. Every license shall contain the designation of the city or village, street and number of the building in which the licensed party conducts said employment agency. The license, together with a copy of this act, shall be posted in a conspicuous place in each and every employment agency. No agency shall print, publish or paint [on] any sign, window, or insert in any newspaper or publication, a name similar to that of the Ohio free public employment offices. The commissioner of labor shall require with each applicant for a license a bond in the penal sum of five hundred ($500) dollars with one or more sureties, to be approved by the said commissioner, and conditioned that the obligor will not violate any of the duties, terms, conditions, provisions or requirements of this act. The said commissioner is authorized to cause an action or actions to be brought on said bond in the name of the people of the state of Ohio for any violation of [any of] its conditions, and he may also revoke upon a full hearing, any license, whatever [whenever] in his judgment the party licensed shall have violated any of the provisions of this act. It shall be the duty of every licensed agency to keep a register, in which shall be entered the name and address of every applicant. Such licensed agency shall also enter into a register the name and address of every person who shall make application for help or servants; and the name or nature of the employment for which such help shall be wanted. Such register shall at all reasonable hours, be open to the inspection and examination of the commissioner of labor or his agents. Where a registration fee is charged for receiving or filing applications for employment or help, said fee shall in no case exceed the sum of two ($2) dollars for which a receipt shall be given, in which shall be stated the name of the applicant, the amount of the fee, the date, the name or character of the work or situation to be procured. In case the said applicant shall not obtain a situation or employment through such licensed agency within one month after registration as aforesaid, then said licensed agency shall forthwith

repay and return to such applicant, upon demand being made therefor, the full amount of the fee paid or delivered by said applicant to said licensed agency, provided that such demand be made within thirty (30) days after the expiration of the period aforesaid. No agency shall send or cause to be sent any female help or servant to any place of bad repute, house of ill fame or assignation house, or any house or place of amusement kept for immoral purposes. No such licensed agency shall publish or cause to be published any false or fraudulent notice or advertisement, or to give any false information, or to make any false promise concerning or relating to work or employment to any one who shall register for employment, and no licensed agency shall make any false entries in the register to be kept as herein provided. No person, firm or corporation shall conduct the business of any employment office in or in connection with, any place where intoxicating liquors are sold.

Section 2. It shall be the duty of the commissioner of labor to enforce this act, when informed of any violation, it shall be his duty to institute criminal proceedings for the enforcement of its penalties before any court of competent jurisdiction. Any person convicted for the violation of the provisions of this act shall be guilty of a misdemeanor and shall be fined not less than fifty ($50) dollars nor more than one hundred ($100) dollars for each offense, or by imprisonment in the county jail for a period not exceeding six (6) months, or both, at the discretion of the court.

Section 3. A private employment agency is defined and interpreted to mean any person, firm or corporation furnishing employment or help, or who shall display any employment sign or bulletin, or through the medium of any card, circular or pamphlet, offering employment or help, shall be deemed an employment agency, and subject to the provisions of this act, whether a fee or commission is charged or not: Provided that charitable organizations are not included.

Section 4. The term "applicant for employment" as used in this act, shall be construed to mean any person seeking work of any lawful character, and "applicant for help" shall mean any person or persons seeking help in any legitimate enterprise; and nothing in this act shall be construed to limit the meaning of the term "work" to manual labor, but it shall include professional service and all other legitimate service.

Section 5. All money or moneys received from fees and fines as herein provided shall be held by [the] said commissioner of labor, and the same shall constitute a fund for the purpose of enforcing the provisions of this act; and the said commissioner shall at the end of each fiscal year make an account of said fund and pay into the state treasury whatever balance shall remain after paying the necessary disbursements for the purpose of enforcing the provisions of this act.

SECTION 6. All acts and parts of acts in conflict herewith are hereby repealed and this act shall take effect and be in force within sixty (60) days from and after its passage.

GEORGE T. THOMAS,
Speaker of the House of Representatives.

GEO. H. CHAMBERLAIN,
President pro tem. of the Senate.

Passed April 25, 1904.
Approved April 26, 1904.

MYRON T. HERRICK,
Governor.

INSPECTION OF WORKSHOPS AND FACTORIES.

97 O. L., 530.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. That supplementary section 2573*a*, including section two thereof, be amended to read as follows:

Sec. 2573*a*. For the purpose of providing an adequate force for the efficient and thorough inspection of workshops and factories throughout the state of Ohio, the governor shall appoint, by and with the advice and consent of the senate, one chief inspector, who, with the approval of the governor, shall appoint thirteen district inspectors.

The chief inspector and district inspectors shall be competent and practical mechanics.

The chief inspector shall hold his office for a term of four years, and shall have his office in the state house, where shall be kept the records of his office; and the district inspectors shall hold their offices for a term of three years from the first day of May after their respective appointments, and until their successors are appointed and qualified; provided, however, that the chief inspector and the district inspectors in office at the time of this act shall serve out their respective terms for which they have been appointed. In case of the resignation, removal or death of the chief inspector, or any district inspector, the vacancy shall be filled in the manner above provided for the original appointments for the unexpired term only of the position so made vacant.

Sec. 2. The chief inspector shall make such assignments of all the district inspectors as the good of the service may require, and shall issue such instructions, and make such rules and regulations for the government of the district inspectors not inconsistent with the powers and duties vested in them by law as shall secure uniformity of action and

proceedings throughout the different districts into which he shall divide the state.

The salary of the chief inspector shall be two thousand dollars ($2,000) per annum, and the district inspectors twelve hundred dollars ($1,200) each per annum, which salaries and all necessary traveling expenses incurred by said inspectors in the discharge of their official duties shall be paid out of the treasury of the state from any fund therein not otherwise appropriated on the warrant of the auditor, on the presentation to him of the proper vouchers.

SECTION 2. That supplementary section 2573*b* be amended to read as follows:

Sec. 2573*b*. The said inspector shall have entry into all shops and factories, including all public institutions of the state which have shops and factories, or either, at any reasonable time, and it shall be unlawful for the proprietors, agents or servants in such factories or shops to prevent, at reasonable hours, his entry into such shops or factories for the purpose of such inspection. And proof of the failure of the proprietor of any shop or factory to make the alteration or furnish the safeguards ordered by the inspector, within the time required by law, shall be deemed prima facie evidence of negligence and shall render such proprietor liable for any injury sustained by reason of such failure to make such alterations or furnish such safeguards.

SECTION 3. That supplementary section 2573*c*, be amended to read as follows:

Sec. 2573*c*. That said inspectors, if they find upon such inspection that the heating, lighting, ventilation or sanitary arrangement of any shop or factory is such as to be injurious to the health of persons employed or residing therein, or that the means of egress in case of fire or other disaster is not sufficient, or that efficient means for extinguishing fire is not provided on each floor, or that the belting, shafting, gearing, elevators, drums and machinery in such shops and factories are located so as to be dangerous to employes, and not sufficiently guarded, or that the vats, pans or structures filled with molten metal or hot liquid are not surrounded with proper safeguards for preventing accident or injury to those employed at or near them, shall notify the owners, proprietors or agents of such shops or factories by mailing such notifications to the last known address of such owners, proprietors or agents to make the alterations or additions necessary without delay; provided, however, that for such of the alterations and additions ordered as may be of such nature as to make it impossible to comply with immediately, the chief inspector may grant from fifteen (15) to thirty (30) days' time from date of first notification to such owners, proprietors or agents, in which to make such alterations and additions, and if such alterations are not made within the limit of time granted, such owners, proprietors or agents so notified, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not

more than five hundred ($500) dollars, and not less than fifty ($50) dollars, and ten (10) dollars additional for each day after such conviction, until such alterations and additions necessary have been made, which fine shall be paid into the treasury of the county in which conviction is had. The district inspectors shall make a record of all examinations of shops and factories in their respective districts, showing the date when made, the condition in which shops and factories are found, and what changes were ordered, the number of shops and factories in their respective districts, the number of men, women and children employed in each shop or factory, together with all such other facts and information of public interest concerning the condition of such shops and factories as they may think useful and proper, which record shall be filed in the office of the chief inspector every week, and so much theerof as may be of public interest to be included in his annual report.

SECTION 4. That supplementary section 2573*a* including section 2 thereof, as passed April 29, 1885, O. L., Vol. 82, p. 179; supplementary section 2573*a*2, as passed March 23, 1892, O. L., Vol. 89, p. 133; supplementary section 2573*b*, as passed April 13, 1898, O. L., Vol. 93, p. 113; and supplementary section 2573*c*, as passed March 3, 1898, O. L., Vol. 93, pp. 30, 31, be and the same are hereby repealed.

GEORGE T. THOMAS,
Speaker of the House of Representatives.

W. G. HARDING,
President of the Senate.

Passed April 20, 1904.

This bill was presented to the governor April 20, 1904, and was not signed nor returned to the House wherein it originated within ten days after being so presented, exclusive of Sundays and the day said bill was presented, and was filed in the office of the secretary of state May 3, 1904.

RISKS TO BE DEEMED AS ASSUMED BY EMPLOYES.

97 O. L., 547.

Be it enacted by the General Assembly of the State of Ohio:

SECTION 1. In any action brought by an employe, or his legal representative, against his employer, to recover for personal injuries, when it shall appear that the injury was caused in whole or in part by the negligent omission of such employer to guard or protect his machinery or appliances, or the premises or place where said employe was employed,

in the manner required by any penal statute of the state or United States in force at the date of the passage of this act, the fact that such employe continued in said employment with knowledge of such omission, shall not operate as a defense; and in such action, if the jury find for the plaintiff, it may award such damages not exceeding, for injuries resulting in death, the sum of five thousand dollars, and for injuries not so resulting, the sum of three thousand dollars, as it may find proportioned to the pecuniary damages resulting from said injuries; but nothing herein shall affect the provisions of section 6135 of the Revised Statutes.

Nothing herein contained shall be construed as affecting the defense of contributory negligence, nor the admissibility of evidence competent to support such defense.

HOLLIS C. JOHNSTON,
Speaker pro tem. of the Houes of Representatives.

W. G. HARDING,
President of the Senate.

Passed April 23, 1904.
Approved May 3, 1904.

MYRON T. HERRICK,
Governor.

RECENT DECISIONS OF COURTS AFFECTING LABOR

THE KELLY ISLAND LIME AND TRANSPORT CO. v. PACHUTA, ADMX.

69 O. S., 462.

(Decided February 2, 1904.)

Employer not liable to one servant—For negligence of another servant—Law of master and servant.

ERROR to the Circuit Court of Ottawa county.

CREW, J. At the time of the injury to John Pachuta which resulted in his death, and gave rise to this action, he was employed by the plaintiff in error as a quarryman in its limestone quarry at Marblehead, in Ottawa county, Ohio. He had been in the employ of, and had worked for said company for about twenty years and for about nine years had been employed in the company's quarry at Marblehead. There were in this quarry two ledges of rock, an upper ledge known and designated in the evidence as the "flux ledge" and a lower ledge known as the "limestone ledge" or "lower rock ledge." These ledges were from nine to twelve feet in height and the upper or flux ledge, which was furthest south, was about five hundred feet distant from the lower or limestone ledge. At the time he was injured, the deceased, John Pachuta, with other workmen, was working upon this lower or limestone ledge and was engaged in quarrying and breaking up and removing stone from said quarry. The method employed in this quarry for loosening and getting out the stone was that of blasting, holes were drilled short distances apart along these ledges of rock, these holes were loaded or charged with powder or dynamite and the charge was then exploded by means of an electric battery. This was called "battery blasting," and the usual effect of such blast was to sever the edge of the ledge of rock along which the blast was placed, from the main body, after which the rock so severed or blown off was broken up by the workmen into smaller pieces, and when so broken up and prepared it was then taken taken to the kiln for burning, or to railroad cars for shipment. The blasting at this quarry was, and for several years had been in the immediate charge of one John Schaffer, whose duty it was to superintend the preparation and firing of these "battery blasts" and to give warning and notice to the other workmen in the quarry when a blast was about to be fired that they might seek a place of safety before such blast should be dis-

charged. Schaffer had as an assistant in the preparation and firing of these battery blasts a man by the name of Onko, and in obedience to instructions issued by the general quarry foreman, Mr. Fillabaum, it was usual for one or the other of these two men—Schaffer or Onko—after a blast had been prepared and was ready to be discharged, to give notice to the other workmen in the quarry that a blast was about to be fired, and this they did, according to the custom of the quarry by going near to such other workmen and calling out the word "fire," after which sufficient time was allowed them to get under cover or to withdraw to a place of safety before the blast was discharged. Schaffer, who in the language of the quarry was known as the "powder man," had no authority or control over Pachuta or the other workmen employed in said quarry; but Schaffer, Onko and Pachuta were each and all of them directly and immediately under the same foreman, Mr. Frank W. Fillabaum. On the day of, and immediately prior to, the injury received by Pachuta, which resulted in his death, a number of holes had been drilled in the upper or flux ledge of said quarry and these holes had been loaded with dynamite. After the blast had been so prepared, Schaffer sent Onko to the lower ledge to notify the men then working there, one of whom was Pachuta, that a blast was about to be discharged. Onko went along the lower ledge and gave the usual warning by calling out, "fire"; several of the workmen heard the warning and withdrew to a place of safety; others claimed they did not hear it. Pachuta, who is not shown to have heard the warning, remained where he was then at work, and when the blast was discharged he was struck by a stone thrown out by said blast and received injuries, from the effects of which, four days later, he died. To recover damages for causing his death, this action was brought by his administratrix against the plaintiff in error, The Kelly Island Lime & Transport Co., she alleging in her petition that his death was caused by, and resulted from, negligence on the part of said company. While acts of negligence other than that of a failure to give notice were charged by defendant in error, in her petition, no claim was made that the company did not exercise due care in the selection of its servants, nor is there any charge that such servants were incompetent, and upon the undisputed facts of this case no right of recovery exists in her favor, and no liability on the part of plaintiff in error is shown, unless such right exists and such liability arises from a failure to give notice or warning to Pachuta that a battery blast was about to be exploded. Assuming then, as we do in this case, that from the evidence, the jury was authorized to find that no such notice was given him and that the death of Pachuta resulted from, and was in consequence of, the failure of Schaffer to give, or cause to be given, proper notice of the intended discharge of said blast, the only question we have thought it necessary to consider upon this record, is whether such neglect and failure upon the part of Schaffer, is in law imputable to the plaintiff in error, The Kelly Island Lime & Transport Co., who was the common employer

of Schaffer, Onko and Pachuta, and whether such company is liable for, and legally chargeable with, the results of such negligence. The determination of this question involves a consideration of the question as to whether or not Schaffer, Onko and the deceased, John Pachuta, were fellow-servants. The general rule that a common master cannot be made responsible for injuries resulting to a servant from the negligence of a fellow-servant, is a principle now well established in almost all jurisdictions. This rule in Ohio was recognized and announced by this court almost half a century ago in the case of *Railroad Co.,* v. *Keary,* 3 Ohio St., 201, and has since been followed by a long and uninterrupted line of decisions to the same effect.

It remains then only to determine whether under the rule in Ohio, defining and prescribing who shall be deemed and held to be fellow-servants, John Pachuta was a fellow-servant, engaged in a common employment, with the parties Schaffer and Onko, who had charge of the battery blast at the time Pachuta was injured.

At the time of the accident these persons were all engaged in the common employment of getting out stone from this quarry—Schaffer and Onko in blasting the stone off from the ledges, and Pachuta after it was so blown off, in breaking it up into smaller pieces and thus preparing and making it ready for the kiln, or for shipment. Although working in different parts of the same quarry their work was in connection with each other and had relation to the same common end, that of getting out the stone, and their co-operation was necessary to bring about that result. They were all employed by, and were serving the same master, neither was in a position of subordination to, or subject to the order and control of the other, but they were each and all of them under the immediate control and authority of the same foreman, Frank W. Fillabaum, and were all engaged in the same general work. In Ohio the test to be applied in determining whether a particular servant is a vice-principal or a fellow-servant, except in certain cases where the rule has been modified by statute, is whether or not he has been placed by his employer in a position of control or authority over his co-employe. That this, rather than the nature and character of the work being done, is the controlling and governing test in this state, would seem to be well settled by the following authorities: *Railroad Co.* v. *Keary,* 3 Ohio St., 201; *Railway Co.* v. *Lewis,* 33 Ohio St., 196; *Railway Co.* v. *Ranney,* 37 Ohio St., 665. In *Railroad Co.* v. *Keary,* we find the following syllabus:

"But a principal is not liable to one servant in his employ for injuries resulting from the carelessness of another servant, when both are engaged in a common service, and no power or control is given to the one over the other. They stand as equals to each other, and are alone liable for the injuries they may occasion.

"But when the failure occurs in that branch of the service committed by the principal to the subordinate servants, it is their fault, and

not that of their employer, and a breach of their obligations, and not his; and where they enter the service with a knowledge that several are to be engaged, each takes upon himself the hazards of the employment including that of negligence by fellow-servants, and public policy requires that they should be interested in exercising supervision over each other."

In *Railway Co.* v. *Lewis,* supra, Day J., in the opinion, says, at page 199: "A master, whether an individual or a corporation, is responsible to his servants for his own negligence, but not for that of their fellow-servants. This is the general rule, subject, however, to the modification recognized in the jurisprudence of this state, that where one servant is placed in a position of subordination to, and subject to, the orders and control of another servant of a common master, and the subordinate servant, without his fault, is injured through the negligence of the superior servant while both are acting in the common service, the master is liable therefor. *P., Ft. W. & C. Ry. Co.* v. *Devinney,* 17 Ohio St., 197; *Berea Stone Co.* v. *Kraft,* 31 Ohio St., 287."

Again, in the case of *Railroad Co.* v. *Margrat,* 51 Ohio St., 130, Judge Bradbury, in discussing the question of who are fellow-servants, at page 141, says: "Was the engineer in charge of locomotive a fellow-servant of Margrat for the consequences of whose negligence the company was not liable to the latter? Margrat and the engineer in charge of the locomotive that struck him were in the employment of the same master. The former was a brakeman on one train, while the latter was an engineer on another train of the same company. Neither had been clothed with authority over the other, therefore the relation of superior and subordinate between them had not existed in fact. In the absence of such relation, their common employer would not be liable to either for injuries received through the negligence of the other, unless the rules of law upon the subject heretofore announced by this court have been abrogated."

In the light of these authorities, upon the undisputed facts in this case, the conclusion that Schaffer, Onko and Pachuta were fellow-servants, is inevitable. It is, however, contended in this case, by counsel for defendant in error, that because of the nature of the work, a duty was by law imposed upon the master, The Kelly Island Lime & Transport Co., in respect to furnishing a safe place for its workmen, and that the duty so imposed included the duty and obligation to give notice and warning to such workmen, whenever a blast was about to be discharged in said quarry. That this duty on the part of the master was an absolute duty and that it could not be delegated by the master so as to absolve him from liability in case of the failure to perform such duty by the person to whom the same might be delegated. We need not here enter upon a discussion of the rule as to the liability of an employer for failure to furnish a "safe place," inasmuch as such rule can have no application to a case such as we are now considering. In this case the deceased, John Pachuta, at the time he was injured was working in an open quarry, engaged with other

workmen, in getting out, quarrying and removing stone therefrom. The quarry itself was not an unsafe place, and if it became so it was only by reason of the negligence of a fellow-servant engaged in a common employment with decedent and during the progress, and while performing a part of, the work incident to such common employment. To such condition of facts the rule of "safe place" can in Ohio have no application. *Railroad Co.* v. *Webb,* 12 Ohio St., 475; *Coal & Mining Co.* v. *Admr. of Clay,* 51 Ohio St., 542; *Cullen* v. *Norton,* 126 N. Y., 1. In support of the claim that the dangerous character of the work and the obligation of the master to maintain a safe place, imposed upon the plaintiff in error the absolute duty of giving actual notice to the workmen in the quarry before the discharge of each battery blast, counsel for defendant in error cite us to the case of *Mooney* v. *Bellville Stone Co.*—a New Jersey case—found in American Negligence Reports, vol. 4, page 195, where it is held upon a state of facts very similar to those in the case at bar, that the giving of warning was a duty owed by the employer to the employes, and the failure of the foreman of a gang of workmen, to perform this duty carefully, was imputable to the defendant as employer. This case is directly in point. But the rule therein laid down cannot, we think, be taken and accepted as the law in Ohio. In holding the master liable in this case, the New Jersey Court of Appeals does so upon the theory that the duty of the master to maintain a "safe place" is imperative and absolute; and that such duty is violated and the master made liable if through the negligence of a fellow-servant, because of his failure to give proper warning, the place is made temporarily dangerous and unsafe, by the doing of that which in the prosecution of the particular business was usual and necessary to be done, and the doing of which was but a part of, and incidental to, the proper conduct and management of such business itself. In other words, the court in effect holds, that the obligation and duty of the master is that of a guarantor or insurer. Such is not the law in Ohio. Hence the doctrine of this case can have no application in this state. *Railroad Co.* v. *Webb,* 12 Ohio St., 475; *Railroad Co.* v. *Fitzpatrick,* 42 Ohio St., 318. Further, the New Jersey rule for determining the liability of a master, and as to who are fellow-servants, is not the same as the rule in Ohio. In New Jersey, the character of the work being performed is the governing test—*Knutter* v. *N. Y. and N. J. Telephone Co.,* 67 N. J. L., 646—while in Ohio the question of control is the test to be applied.

In the case at bar, the only negligence shown, being the negligence of a fellow-servant of the decedent, John Pachuta, the master, The Kelly Island Lime & Transport Co., cannot be held liable for the results of such negligence. The plaintiff in error was, upon the record, entitled to have judgment in its favor, and its motion to arrest the case from the jury, and for judgment, should have been sustained.

Judgment reversed and judgment for plaintiff in error.

SPEAR, DAVIS, SHAUCK and PRICE, JJ., concur.

THE CLEVELAND, LORAIN & WHEELING RAILWAY CO. v. SHANOWER.

70 O. S., 166.

(Decided April 26, 1904.)

Engineer and brakeman—Fellow-servants—Section 3365-22, Revised Statutes.

ERROR to the Circuit Court of Tuscarawas county:

Plaintiff by his petition, after certain formal allegations, alleged that on the twelfth day of December, 1899, he was directed by the defendant, plaintiff in error here, to act as brakeman on one of its freight trains, which train consisted of about thirty-two cars, a locomotive engine, and caboose; that on said date, while the train was in motion and running northward on said railroad, a short distance north of Flushing, the train of cars parted about twenty-two cars from the locomotive engine, leaving about ten cars and the caboose following the engine and twenty-two cars; that the engineer, with full knowledge that the train had parted, and that the said ten cars and caboose were following, carelessly and negligently permitted the said ten cars and caboose to overtake and collide with the twenty-two cars and the locomotive engine, wrecking the said cars, and thereby injuring the plaintiff to such an extent that his left leg had to be, and was, amputated; that the plaintiff was in the exercise of ordinary care and without fault or negligence on his part and that the engineer was employed by the defendant and actually had power and authority, as such employe, to direct and control the fireman employed by the defendant and working upon said locomotive engine attached to and hauling said train; and that the plaintiff as such employe, had no authority to direct and control any employe or person in the service of the defendant.

This petition was demurred to, for the reason that it does not state facts sufficient to constitute a cause of action in favor of the plaintiff against the defendant. The demurrer was overruled, and, after answer and reply, trial was had in the court of common pleas; and at the close of the plaintiff's testimony, as well as at the close of all the testimony, the defendant requested the court to instruct the jury to return a verdict in favor of the defendant, which was refused; and the court charged the jury, among other things, as follows: "If you find by a preponderance of the evidence that the engineman actually had power or authority to direct or control the fireman, and that the plaintiff, a brakeman, had no power or authority to direct or control any employe in the branch or department in which he was employed, then I charge you that the engineman and the plaintiff were not fellow-servants."

The court of common pleas overruled the motion for a new trial, and, on petition in error in the circuit court, the judgment was affirmed. Defendant below prosecutes error to reverse both of the judgments below.

DAVIS, J. This case is not controlled by the decision in *Railway Co.* v. *Margrat,* 51 Ohio St., 130. The facts of that case were held to justify the application of the statutory rule provided in the last clause of section 3365-22, Revised Statutes. Inasmuch as the engineer and the injured brakeman were engaged in distinctly separate enterprises, that is, the operation of separate trains, it was held that the engineer was a person "having charge or control of employes in any separate branch or department" and therefore the superior and not the fellow servant of the brakeman on another train who had "no power to direct or control in the branch or department" in which he was employed. There may be reasons for doubting the soundness of that interpretation of the words "separate branch or department," but that question does not necessarily arise here.

The statute is in derogation of the common law, and therefore it cannot be enlarged beyond its terms. It declares that it is intended to add to the liability already recognized by law. It does this in two particulars; First, it makes obligatory upon the courts of this state the superior servant rule, which was first announced in this court in *Little Miami Railroad Co.* v. *Stevens,* 20 Ohio, 415, and which was afterwards approved and followed in a number of other cases in this and other states, although it has been repudiated in many others. Second, it creates by force of the statute a relation of superior and subordinate where none exists in fact, and brings it within the operation of the rule mentioned. The contention in this case is to bring the engineer and brakeman within the second particular; for it does not seem to be seriously contended that the brakeman was actually under the direction or control of the engineer. There is in evidence a rule of the railway company which contains this sentence: "When there is no conductor, or he is disabled, the engineman will have charge of the train, and will be governed by the rules prescribed for conductors." But there was a conductor on this train, and he was not disabled. Shall we assume that the mere breaking of a link or a coupling pin dethroned him, and delegated from the master to the engineer authority to control the brakeman? The rules which are in evidence disclose no such provision, and we discover no foundation in fact or in reason, for making such an assumption. Upon cogent reasoning this court held in *Railway Co.* v. *Ranney,* 37 Ohio St., 665, that the relation of superior and subordinate, as between an engineer and a brakeman, is not created by a rule which requires the engineer to give certain signals, and which also requires brakemen to work the brakes in response to the signals. And much less could such a relation be implied from, or created by, the brakeman signalling to the engineer the information that the train had parted, and by the answering signal of the engineer.

It is conceded that the fireman is subordinate to the engineer; but in

order that this case may be controlled by the last clause of section 3365-22, Revised Statutes, it is necessary that the engineer and the brakeman should be in different branches or departments of service. Whatever may be the exact definition of the words "branch or department," as used in the statute, it seems clear to us that the engineer and the brakeman were associated in a common employment and in the same branch or department, viz.: that of operating the same train of cars. It does not appear that as between them there was any relation of superior and subordinate, either in fact or in law. Therefore, if there was negligence on the part of the engineer which produced the injury complained of, it was the negligence of a fellow-servant. It follows that the plaintiff has neither alleged nor proven a cause of action against the defendant.

It is insisted by counsel that this conclusion involves an injustice to somebody. For example, if we may suppose that the same act of negligence by the engineer, which caused the injury to the plaintiff, also caused an injury to another brakeman on another train; yet the latter may recover under *Railway Co. v. Margrat,* while the former may not. This is true, and assuming that *Railway Co.* v. *Margrat* correctly construes the statute, the result is attribuable to the statute itself. While attempting to modify the common law, it has not entirely abrogated it.

The court of common pleas erred in refusing to direct a verdict for the defendant below, and also erred in the charge. The judgment of the circuit court affirming that of the court of common pleas, and the judgment of the court of common pleas are both

Reversed and judgment rendered for plaintiff in error.

SHAUCK, PRICE, CREW and SUMMERS, JJ., concur.

MANUFACTURES.

On January 1st, 1905, the following blank was mailed to the various manufacturers and producers of the State:

INDUSTRIAL AND WAGE SCHEDULE FOR 1904.

NOTE—Separate reports are required to be made for each plant operated during any part of the calendar year.

1. Name of firm, company or corporation.....
2. Where located, county of.....
3. Postoffice address.....
4. Class of goods produced or manufactured.....

.....

5. Capital invested in grounds, buildings and machinery..... $.....
6. Total value of goods produced or manufactured..... $.....
   (Note—Estimating value of goods on hand at current prices.)
7. Amount paid for rent, taxes and insurance..... $.....
8. Total amount paid in wages..... $.....
   (Note—Exclusive of salaried officials and office help.)
9. Total number of days in operation.....
   (Note—Compute fractional parts of days to make whole days.)

10. OFFICE HELP.

Give total amount paid in Salary for each class per month.	Number Employed.	Total Amount Paid Per Month.	
Superintendents	.....	.....	.....
Salesmen	.....	.....	.....
Bookkeepers	.....	.....	.....
Clerks	.....	.....	.....
Stenographers	.....	.....	.....

11. Give number of persons employed exclusive of salaried officials and office help for each month during the year 1904.

		January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.
1904	Males	....	....	....	....	....	....	....	....	....	....	....	....
	Females	....	....	....	....	....	....	....	....	....	....	....	....

12. Give below the number of employes in each separate occupation or branch of work, naming the occupation or trade, with the average daily wages and the average hours of labor per day, and also state whether there has been an advance or reduction in wages during 1904, and how much per cent. Do not include salaried officials or office help.

INCLUDE ALL EMPLOYES OVER 14 YEARS OF AGE.

Occupations. (Classify occupations of your employes fully in this column.)	Number Employed.		Average Daily Wages.		Hours of Daily Labor.		Change in wages in per cent. for year ending Dec. 31, 1904.			
							Advanced.		Reduced.	
	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.	Males.	Females.

LAWS GOVERNING THE COLLECTION OF STATISTICS.

Sec. 308. The commissioner shall have an office in the state house which shall be a bureau of labor statistics, and he shall collect, arrange and systematize all statistics relating to the industrial, social, educational and sanitary conditions of the laboring classes, and to the productive industries of the state, including the names of firms, companies, or corporations, where located, capital invested in grounds, buildings and machinery; class and value of goods produced or manufactured; number of days in operation; amount paid yearly for rent, taxes and insurance; amount paid in wages; number of employes, male and female; number engaged in clerical work and manual labor, with detailed classification of the number and sex engaged in each class or occupation, and the average daily wages paid to each. Said commissioner is authorized to appoint special agents to represent the bureau with authority to visit the delinquent firms and collect such statistics, and perform such other duties as may be required, with like power as is conferred by law upon said commissioner. * * * *

Sec. 309. The commissioner shall have power to send for persons and papers, to examine witnesses under oath, to take depositions, to cause them to be taken by others by law authorized to take depositions; and said commissioner may deputize any uninterested person to serve subpoenas upon witnesses, who shall be summoned in the same manner and paid the same fees as witnesses before a county court, but for this purpose persons are not required to leave the vicinity of their residence or place of business; and any person or owner, operator, manager or lessee of any mine, factory, workshop, warehouse, elevator, foundry, machine shop, manufacturing or other industrial establishment, or any agent or employe of such owner, operator, manager or lessee who shall refuse said commissioner admission therein for the purpose of inspection, or who shall, when requested by him, willfully neglect or refuse to furnish to him any statistics or other information relative to his lawful duties which may be in their possession or under their control, or who shall willfully neglect or refuse, for thirty days, to answer questions by circular or upon personal application, or who shall knowingly answer any such questions untruthfully, or who shall refuse to obey the subpoenas and give testimony according to the provisions of this act shall, for every such willful neglect or refusal, be deemed guilty of a misdemeanor,

and upon conviction thereof shall be punished by a fine of not less than fifty nor more than five hundred dollars.

Sec. 310. The commissioner shall make an annual report to the general assembly of the work done by the bureau. Said report shall be so compiled so as not to expose, without a written consent, the name or private affairs of any person, firm, company or corporation that has furnished such information as the bureau requires.

Note.—As the time for the preparation of the annual report of the bureau of labor statistics is limited by statute, all persons receiving this schedule are cautioned against delay beyond the time allowed by the above law, and also against the making of partial reports. All partial or incomplete reports will be returned for correction.

TABLE II.

GIVING BY INDUSTRIES THE NUMBER OF ESTABLISHMENTS REPORTED, THE AMOUNT PAID IN WAGES, THE NUMBER EMPLOYED AND THE SALARIES PAID OFFICE HELP FOR THE YEAR 1904.

TABLE IIa—MANUFACTURES—CLEVELAND.

Industries.	Number of establishments reported.	Total amount paid in wages during year 1904.
Advertising novelties and signs	2	$11,250 00
Awnings, tents and flags	4	35,006 08
Bags (paper and burlap)	4	194,391 66
Bicycles, bicycle sundries and automobiles	10	832,319 34
Billiard tables, bar and store fixtures	5	70,600 00
Boilers, engines and tanks	10	108,573 58
Boots and shoes	3	201,324 00
Boxes (paper)	6	114,629 78
Boxes (wooden)	14	206,869 19
Bread and other bakery products	19	341,648 92
Brick and tile	14	287,328 45
Brooms and brushes	5	50,375 00
Buttons (pearl)	2	14,802 00
Carriages and wagons	27	232,567 20
Carriage and wagon materials	2	29,477 51
Chewing gum	2	68,509 90
Cigars	40	317,338 27
Clothing	158	2,799,060 03
Coffee, baking powder and spices	2	5,769 18
Coffins and burial cases	2	68,000 00
Confectionery	9	118,448 99
Cooperage	6	126,625 44
Copper and brass goods	17	357,387 96
Cotton and woolen goods (knit and woven)	9	517,077 32
Dairy products	5	125,488 00
Drugs, chemicals and druggists' sundries	14	356,775 55
Electrical goods and supplies	21	843,690 08
Elevators and hoisting machinery	3	33,095 15
Extracts, toilet articles and perfumery	4	29,416 04
Fertilizers	2	80,630 00
Flouring mill products	2	30,448 00
Foundry and machine shop products	71	5,140,574 34
Furniture	10	66,865 19
Gas and electricity	4	472,972 69
Gas mantels	3	16,980 00
Glass and glassware	3	19,360 71
Gunpowder and other explosive	2	64,000 00
Hardware	14	1,255,697 79
Harness and saddlery	9	20,757 27
Hats, caps and furnishings	7	53,711 31
Ice (artificial)	5	47,157 33
Inks	2	7,302 00
Iron (structural and architectural)	11	652,460 42
Jewelry and watches	4	27,018 00
Leather and leather goods	4	51,164 23
Lime, sand, cement and plaster	2	16,452 95
Liquors (malt)	11	526,579 32
Lithographing, engraving and electrotyping	11	200,187 62
Macaroni	3	24,750 00
Machinery	42	2,868,543 92
Marble and granite	8	152,207 68
Mattresses and pillows	2	21,585 00
Mouldings and frames	3	145,300 00
Oil and grease	9	813,074 63
Paints and varnishes	18	348,349 69
Patterns and models	3	30,960 00
Pianos and other musical instruments	2	37,815 31
Plating	2	14,400 00
Plumbing and gas fitting supplies	10	176,259 33
Printing and binding	53	834,328 00
Pumps and water wheels	2	20,945 71
Roofing (iron, steel and tin)	5	42,660 00
Rubber goods	3	194,872 24
Rugs and carpet cleaning	2	36,220 00
Sash, doors, lumber and interior finish	24	614,787 08
Slaughtering and meat packing	8	494,669 16
Soaps, candles and tallow	5	23,148 00
Soda and mineral waters	10	34,652 00
Steel, iron and tin	9	4,779,737 34
Stencils, stamps and seals	5	10,284 00
Stone (cut, sawed and artificial)	6	806,216 42

TABLE II*h*—MANUFACTURES—STATE.

Industries.	Number of establishments reported.	Total amount paid in wages during year 1904.
Advertising novelties and signs	21	$438,451 88
Agricultural implements	58	2,397,527 88
Awnings, tents and flags	24	142,529 05
Bags (paper and burlap)	10	267,256 66
Baskets	11	74,740 11
Bath cabinets	2	5,556 04
Bicycles, bicycle sundries and automobiles	37	2,204,151 72
Billiard tables, bar and store fixtures	33	614,205 51
Boilers, engines and tanks	112	4,533,367 25
Boots and shoes	52	5,333,868 96
Boxes (paper)	31	488,325 39
Boxes (wooden)	54	591,083 69
Bread and other bakery products	257	1,458,851 02
Brick and tile	363	5,110,024 54
Brooms and brushes	50	395,462 90
Bungs	3	42,734 00
Buttons (pearl)	2	14,802 00
Canned goods	34	266,178 36
Carriages and wagons	282	3,399,260 61
Carriage and wagon materials	81	1,754,219 15
Cars and car furnishings	9	423,378 30
Casters	2	20,061 58
Chewing gum	4	81,759 90
Churns	4	34,242 42
Cigars	399	2,835,057 96
Clothing	712	8,026,652 01
Clothes wringers and washboards	3	5,950 00
Coffee, baking powder and spices	20	112,821 09
Coffins and burial cases	11	482,364 53
Confectionery	59	448,461 93
Cooperage	82	1,004,548 17
Copper and brass goods	60	1,289.613 47
Cordage and twine	2	202,734 41
Cotton and woolen goods (knit and woven)	54	1,243,162 10
Cutlery and edge tools	8	311,555 33
Dairy products	80	335,191 80
Dental and surgical chairs	3	45,174 29
Drugs, chemicals and druggists' sundries	100	994,551 81
Electrical goods and supplies	73	2,164,321 72
Elevators and hoisting machinery	9	141,408 96
Extracts, toilet articles and perfumery	18	116,383 59
Fertilizers	13	187,098 38
Fireworks	2	61,713 04
Flouring mill products	376	2,072,332 87
Foundry and machine shop products	329	14,356,382 08
Furniture	160	3,273,348 22
Furs	2	6,200 00
Gas and electricity	186	1,566,980 03
Gas mantels	3	16,980 00
Glass and glassware	43	3,710,590 52
Glassworks' supplies	4	76,813 90
Gloves and mittens	13	148,556 10
Gunpowder and other explosives	9	222,300 48
Handles	36	246,390 55
Hardware	33	1,621,148 56
Harness and saddlery	63	708,889 46
Hats, caps and furnishings	34	321,200 43
Hollow ware	5	242,276 40
Ice (artificial)	56	318,203 17
Inks	5	97,662 75
Iron (structural and architectural)	41	1,734,071 58
Jewelry and watches	24	9,7,522 32
Leather and leather goods	38	928,345 40
Lighting apparatus	9	117,352 58
Lime, sand, cement and plaster	67	903,926 92
Liquors (distilled)	41	381,593 37
Liquors (malt)	111	4,666,296 56
Lithographing, engraving and electrotyping	45	931,063 87
Macaroni	3	24,750 00
Machinery	225	9,830,723 30
Malt	6	50,566 00

TABLE IV.

GIVING BY OCCUPATIONS, NUMBER EMPLOYED, AVERAGE NUMBER OF DAYS WORKED, AVERAGE DAILY WAGES, AVERAGE YEARLY EARNINGS, AVERAGE HOURS OF DAILY LABOR FOR THE YEAR 1904.

TABLE IVa—MANUFACTURES—CLEVELAND.

ADVERTISING NOVELTIES AND SIGNS—2 ESTABLISHMENTS.

Occupation—Male.	Number employed.	Average number of days worked in 1904.	Average daily wages.	Average yearly earnings, 1904.	Average hours of daily labor.
Designer	1	300	$4 00	$1,200 00	9
Electrician	4	300	2 50	750 00	9
Laborers	2	300	1 35	405 00	9
Sign hanger	1	300	2 50	750 00	9
Sign painters	2	300	2 50	750 00	9
Tinners	2	300	2 00	600 00	9

AWNINGS, TENTS AND FLAGS—4 ESTABLISHMENTS.

Blacksmith	1	302	2 25	679 00	10
Finisher	1	302	2 25	679 00	10
Frame maker	1	306	2 00	612 00	10
Hangers	43	301	2 00	602 00	10
Riggers	4	300	2 50	750 00	10
Sail makers	12	300	2 50	750 00	10

BAGS (PAPER AND BURLAP)—4 ESTABLISHMENTS

Back tenders	7	325	1 20	390 00	12
Balers	14	297	1 71	507 87	10
Beatermen	5	318	1 91	607 38	12
Beatermens' helpers	12	322	1 47	473 34	12
Bleachers	6	325	1 30	422 50	12
Carpenter	1	308	2 25	693 00	10
Coaters	3	308	1 25	385 00	10
Compositors	5	297	2 05	608 85	10
Cutters	5	322	1 46	470 12	11.6
Cutters (boys)	7	325	85	276 25	12
Engineers	7	311	2 44	758 84	11.4
Engravers	8	294	2 10	617 40	9
Firemen	5	313	1 62	507 02	11.2
Foremen	7	294	3 25	955 50	10
Laborers	30	303	1 56	472 68	10
Lay boys	2	308	1 05	323 40	12
Machine operators	12	295	1 75	516 25	10
Machine tenders	9	321	2 15	690 15	12
Machinist	1	308	1 75	539 00	10
Machinist's helper	1	308	1 33	409 64	10
Millwrights	2	325	1 80	585 00	12
Packers	33	294	1 70	499 80	10
Pressmen	21	295	2 31	681 45	10
Pressmen's helpers	24	296	92	272 32	10
Stock hand	1	308	1 40	431 20	10
Teamsters	6	307	1 56	478 92	10.7
Watchmen	4	298	1 56	464 88	10

BICYCLES, BICYCLE SUNDRIES AND AUTOMOBILES—10 ESTABLISHMENTS.

Annealers	3	293	2 00	586 00	10
Apprentices	45	305	81	247 05	10
Assemblers	37	304	2 42	735 68	10
Bench hands	52	308	2 03	625 24	9
Blacksmiths	16	307	2 65	813 55	9.3
Blacksmiths' helpers	28	306	1 72	526 32	9.4
Buffers	4	293	2 00	586 00	10
Carpenters	60	308	2 80	862 40	9

Part III.

PRISON LABOR.

STATE OF OHIO.

BUREAU OF LABOR STATISTICS.

COLUMBUS, OHIO, August 14, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

DEAR SIR:—Pursuant to my commission from you dated June 23, 1905, to visit the penal and reformatory institutions of the State of Ohio, with full power to make investigations of the same, under 7432-1 and 7432-2 of the Revised Statutes of Ohio, I respectfully submit the following report.

I visited the following twelve institutions and ascertained the facts and figures as required by law: Boys' Industrial School, Lancaster, Columbus Workhouse, Ohio Penitentiary, Toledo Workhouse, Zanesville Workhouse, Stark County Workhouse, Cleveland House of Correction, Girls' Industrial Home, Delaware, Ohio State Reformatory, Mansfield, Dayton City Workhouse, Xenia City Workhouse, Cincinnati City Workhouse.

My instructions were to ascertain in each institution the following data:

Name of institution.

Total number of prisoners.

Number prisoners employed, all occupations.

Number prisoners unemployed.

Goods or wares manufactured.

System of labor prevailing.

Name of manufacturing establishment.

Number of prisoners engaged in manufacture.

These statistics on each separate institution will be found in the following appended tables. The figures in these tables were given to me by the superintendent or secretary, and are averages for June, 1905.

These tables show the total number of prisoners in these twelve institutions to be 5,151. Of this number, 4,953 are working and 198 are idle in consequence of being sick, crippled or superannuated. The rule being in all these institutions that all prisoners must be kept busy either at manual labor or in school, unless physically or mentally disabled. "You must keep them busy or they will keep you busy," facetiously remarked an officer in one of these institutions, and the fact that they are usually kept profitably busy is the secret of much of the success in point of discipline and reformation in a goodly number of these prisons.

Of the total number employed, 2,220 are engaged in the manufacture of brushes, brooms, bricks, wire goods, cigars, bolts and nuts, cuspidors, stoves, bits, buckles, snaps, rings, farm and garden tools, etc. In other words, about 45 per cent. are engaged in productive labor and the remainder (2,733), or 55 per cent., are engaged in unproductive labor; such as kitchen work, cooking, mowing lawns, cleaning halls, laundering, and odd jobs of various kinds.

There are three prevailing systems under which prison labor is employed, viz.: the "contract, piece-price and public account systems."

"Under the 'contract system' contracts are made with private individuals, firms or corporations in accordance with which convicts are employed in manufacturing industries, at certain agreed prices, for their labor, for fixed periods of time, the prisoners working under the immediate direction of the contractor or his agents, but remaining under the general supervision and control of the prison authorities.

"Under the 'piece-price system,' contracts are made with private individuals, firms or corporations, under which the prison is furnished by them with materials in proper shape for working. The materials thus furnished are converted by the labor of the convicts into finished products, which are delivered to the contractors at agreed prices per piece—the work of manufacturing being conducted wholly under the supervision of the prison officials.

"Under the 'public account system,' the convicts are worked exclusively for the benefit of the State. The convicts or inmates of the Ohio Penitentiary that are not required by the State to care for the institution and manufacture supplies for the same are employed under the 'piece-price and contract systems.' "

The industrial and reformatory methods used in these penal institutions at the present time are not only in keeping with the present advanced state of civilization but also in some instances at least, they are based on a sound knowledge of the physical and psychical peculiarities of criminals, technically called criminal anthropology. The whole system of management in some of these prisons is so humane, so wholesome, so in accordance with good sense and sound judgment as to meet with the approval of the most critical inspector. There are but two factors which make up all grades of men from the vilest criminal to the most noble type of man. These are heredity and environment. The question of heredity is beyond the control of those in charge of these institutions, but the question of environment is partly within their control, and in this respect the three reformatories—the Ohio State Reformatory at Mansfield, the Boys' Industrial School at Lancaster, and the Girls' Industrial Home at Delaware, must indeed excite the wonder and the admiration of any one who visits their beautiful grounds, their clean halls, kitchens, dormitories, baths, and sanitary workshops. In short, the environment is clean, beautiful and uplifting. And the kind treatment, which the officers in charge usually extend to the inmates, generally elicits from the inmates respectful obedience. Kindness guided by intelligence seems to be characteristic of the beautiful discipline of these reformatories. Statistics show that about 70 per cent. of those who graduate from these places cease to do evil and learn to do good. These institutions are indeed the pride of the great State of Ohio, and every citizen ought to visit them and know what they are doing for the unfortunate ones of the State.

The reformation of the criminal is the next greatest work to the prevention of crime. The best efforts of every loyal, patriotic citizen, as well as of every philanthropist and labor leader, ought to be exerted to reduce crime to a minimum. The chief cause of crime when reduced to its final analysis is ignorance. It is a fact that a very large proportion of young men and women in these reformatories enter them deficient in the common school branches. When the inherited tendencies to crime are not too strong, the developing and softening influences of intellectual and moral training as carried on in these reformatories are sufficient to impress the wrong-doer of the evil of his way.

Respectfully submitted,

G. W. LEAHY.

Special Agent.

Part V.

FREE PUBLIC EMPLOYMENT OFFICES AND CHRONOLOGY OF LABOR BUREAUS.

CLEVELAND OFFICE.

Cleveland, Ohio, November 9, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

DEAR SIR:—I have the honor to submit herewith the annual report for the twelve months ending October 31, 1905. Also the itemized expense account for same period.

Owing to the remarkable influx of strangers into the city, this office has been unable to meet the demands for situations wanted. On the other hand, this fact has also had the tendency to lessen the demand for help wanted.

In the ladies' department this office has supplied more situations than it has in previous years.

Respectfully,

I. M. McMULLAN.

COLUMBUS OFFICE.

Columbus, Ohio, November 1, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

SIR:—I have the honor to herewith submit the 15th annual report of the Free Public Employment Office, of Columbus, Ohio, for the twelve months ending October 31, 1905. You will also find enclosed an itemized account of the expenditures of this office for the same period.

Very truly yours,

S. P. EWING, Superintendent.

CINCINNATI OFFICE.

Cincinnati, Ohio, November 1, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

DEAR SIR:—I herewith enclose you the annual report of the Free Public Employment Bureau, of Cincinnati, Ohio, for the year, closing October 31, 1905.

You will also find enclosed, the financial report for the same period.

The tabulated report of this office is arranged weekly, covering (52) fifty-two weeks and dating from the week closing November 3d, 1904, up to and including the week ending October 26, 1905.

You will notice by the reports, that this office is in a flourishing condition with bright prospects for a continuance.

Thanking you and your office force for past considerations, I trust to remain,

Very truly yours,

JAMES S. RICHARDSON, Superintendent.

DAYTON OFFICE.

Dayton, Ohio, November 1, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

DEAR SIR:—I have the honor to herewith submit my annual statement of business done in the Dayton Free Public Employment Office, for the year ending, October 31st, 1905. Also itemized financial report for same time.

You will see by our tabulated report giving number of situations wanted, help wanted, and positions secured, that the business of this office compares favorably with previous years. That the demand for both male and female help has been greater than the supply.

I regret very much during the past year, we have had no funds for advertising our office, and would heartily recommend that the incoming legislature appropriate at least $100.00 a year for advertising and contingent fund.

There has been during the past year, three private employment offices started in this city. One of them has gone out of business, the second one which was established about June 15th, is still doing business. The third and last one was established about October 1st. I have not heard of a position they have secured for any one as yet.

Yours very truly,

JOHN F. ILIFF, Superintendent.

TOLEDO OFFICE.

Toledo, Ohio, November 1, 1905.

Hon. M. D. Ratchford, Commissioner of Labor Statistics, Columbus, Ohio:

SIR:—I have the honor to submit herewith a statement of the business transacted by the Free Public Employment Office of this city for the twelve months ending October 31, 1905, also expense report covering the same period.

Yours truly,

SAM COHN, Superintendent.
